Chris,
Awaiting an answer from ACV but I believe we are correct with the non applicability of the UHC when treatment is incineration.

[Nonresponsive based on revised scope]

Our EPA OSC has a UHC question. UHC's are applicable for landfilling waste, it appears that all the RCRA hazardous waste is going for incineration or fuel blending where the UHC would NOT be applicable? The RCRA non-hazardous waste (WD02, WT02 & LP01) is going to Advanced Disposal for solidification and landfilling?

If you could help clear up the UHC applicability question that would be great.
Thanks
